The Oldest and Most Widely Used Inoculant in America

Encourage the farmer to inoculate all legume seeds whether planted on old or new fields. It costs but a few cents per acre. It seldom pays to depend upon natural inoculation.

YOU BUY INOCULATION ON FAITH:—You cannot see the nitrogen-fixing bacteria. They are visible only under a high-power microscope and not to the naked eye. Immediate demonstration therefore is impossible; consequently you must purchase legume bacteria on faith and faith only.

● NITRAGIN — is the oldest and most widely used inoculator in America.

● NITRAGIN — has served the American farmers for over forty-six years.

● NITRAGIN — was awarded a GOLD MEDAL at World's Fair, St. Louis, 1904.

Insist on NITRAGIN inoculation. ACCEPT NO SUBSTITUTE.
